

CARMOUNT EGRIPMENT SPECIFICATIONS

The Egriment CarMount Kit is a professional camera support system designed to mount filming equipment securely and stably onto the hood (bonnet) or side (doors) of vehicles.

Below are the main technical specifications and features of this rigging system provided by Egriment:

Technical Specifications

Attribute	Technical Details
Maximum Payload Capacity	Up to 100 kg (220.5 lbs)
Kit Weight	Approximately 60 kg (132.3 lbs)
Physical Dimensions	120 cm (Length) x 60 cm (Width) x 60 cm (Height)
Applications	Moving vehicle shots including door and bonnet positions
Transport	Delivered in a dedicated Flight Case for secure transportation

Setup and Integrated Mounts

Side Mount (Doors): Consists of two heavy-duty brackets that suspend the camera platform through the open side window of the vehicle.

Front Mount (Bonnet): Uses a reinforced aluminum platform attached directly to the hood via articulated legs equipped with high-grip suction cups.

Compatible Grip Accessories: Frequently works in conjunction with the Egriment Power Grip (a vacuum suction cup with an integrated hand pump supporting up to 50 kg) and the Egriment Gimble designed to quickly level the camera on any car rig.
